

Three Field Workers

Date

1908

Primary Maker

Harry Becker

Medium

Lithograph on paper

Dimensions

42.4 x 52.7 cm

Description

This is a planographic print (lithograph) on paper. Three women, in the foreground, are working in a field. They are all dressed in late 19th century peasant attire, long dresses and white headgear. One is digging with a spade, while the other two are gathering crops. A flat landscape stretches out into the background with a church spire on the distant horizon. This lithograph takes the appearance of an informal gestural sketch.
