---

## Haiku

### Date

1966

### Primary Maker

Charlotte Jennings

### Medium

Carborundum print on paper

### Dimensions

79.1 x 57 cm

### Description

This is a three colour collagraph print (carborundum) on paper. Carborundum is powder-like substance made up of metal grains (these come in various grades of texture); it is mixed with glue and applied to a plate. The metal grains then hold ink, which is in turn transferred to the

paper.
