

## Study of a Girl

### Date

1907

### Primary Maker

Augustus Edwin John

### Medium

Pencil on paper

### Dimensions

31.3 x 20.6 cm

### Description

This is a drawing study of a young woman, Dorelia, with her hands raised up to adjust her headscarf. She is shown in a three quarter length pose. She is standing and facing almost completely towards the viewer, however since she is actually looking downwards and to the right, she is not making eye contact.
